

WINDOW REPLACEMENT PROJECTS

Charter House, Mayo
211 Second Street NW
Rochester, Minnesota

Loring 100 Apartment Building
1355 Nicollet Avenue
Minneapolis, Minnesota

Wilkus Architects provided services that included analyzing existing conditions of windows and requirements for reconditioning sills, jambs and headers before installation of new windows. Assistance was also provided in selecting a window manufacturer and window model that met requirements from cost to wind loading at upper stories. We developed a schedule of window types and sizes to help in costing and installation sequencing.
